Manual-1

Particulars of organization, functions and duties

1. Brief History and back ground for its establishment :-

The concept of policing in Delhi is as old as the history of Delhi itself. Life being relatively more complex and delicate, the rulers of Delhi in one or the other form always kept a force to regulate its affairs and preserve its law and order. The force was ordinarily lodged in a Fort (kot) under an officer called 'Kotwal' which later on came to be called 'Kotwal'. To make the movements on highways safe something like the present police post seem to have been set up there at some strategic points. These were called 'Sthanas' which later on called 'Thanas'. The Kotwal was the Head of the Police System. He was a direct appointee of the King. The Kotwal was supposed to make the city crime free and maintain the law and order. The Kotwal and his system of policing continued to remain in place during medieval period. The first Kotwal of Delhi (1237) was Malikul Umara Faqruddin and the last Kotwal of Delhi was as Sh. Gangadhar Nehru (1857). After the First War of Independence, the British Monarch took over British Administration. The police was re-constituted under the Police Act 1948, the Delhi Police was placed under the charge of an IGP exclusively responsible for maintenance of law and order of Police system was introduced w.e.f. 01.07.1978. Since then, the Commissioner of Police, Delhi has been heading the Delhi Police.

MV Theft e-FIR (Motor Vehicle Theft Web Application)

Motor Vehicle Theft Web Application has been devised to ensure trouble free registration of FIRs in automobile theft cases and prompt initiation of automated investigation measures. It also incorporates processes to keep the complainant informed of the efforts made. A time bound closure of undetected cases with seamless acceptance of the same by a competent Court is part of the system so that the victim can file insurance claim on timely receipt of the closure report. The Hon'ble Delhi High Court and Learned District Court were apprised and convinced about the utility of this App. Consequently, all the ACMM Courts have been designated as e-Courts to accept the Final Reports.

Property Theft e-FIR (Web Application)

A web application has been developed by Delhi Police for total transformation of the system to enable the complainants to register FIR and receive a copy of the same instantly without going to a Police Station. Away fromthe prevailing system, this systemic transformation will make life simpler for citizens through hassle free registration and facilitate speedy investigation and systematic documentation.

Complaint can be lodged through web any time anywhere without going to Police Station.FIR will be lodged at e-Police Station – having jurisdiction all over NCT of Delhi established under Crime Branch.Timely disposal of cases to reduce workload and pendency at the level of Police Stations.

e-NCR (Electronic Non-Cognizable Report)

According to Section 174 of the BNNS, if a citizen wants to file a report of theft worth less than Rs. 5000/- then he can go to the Citizen Services option on the Delhi Police website and click on the Theft E-FIR and receive a copy of the same instantly without going to a Police Station. Away fromthe prevailing system, this systemic

transformation will make life simpler for citizens through hassle free registration and facilitate speedy investigation and systematic documentation.

Lost/Missing Articles Report Application

Lost/Missing Articles Report Application is used to issue a report to an individual in case of loss of important documents like passport, I-card, Ration Card, Driving License etc., so that the issuing authority can reissue a fresh document on the basis of the lost report.

By entering relevant details on this mobile/web based application, one can lodge a lost report, and obtain a printable & digitally signed report of the same and use this document for getting a fresh document reissued from the concerned authority without the need to go to a police station. This report can be lodged from anywhere in the world and a printable digitally signed report is instantaneously sent in response to the complainant.

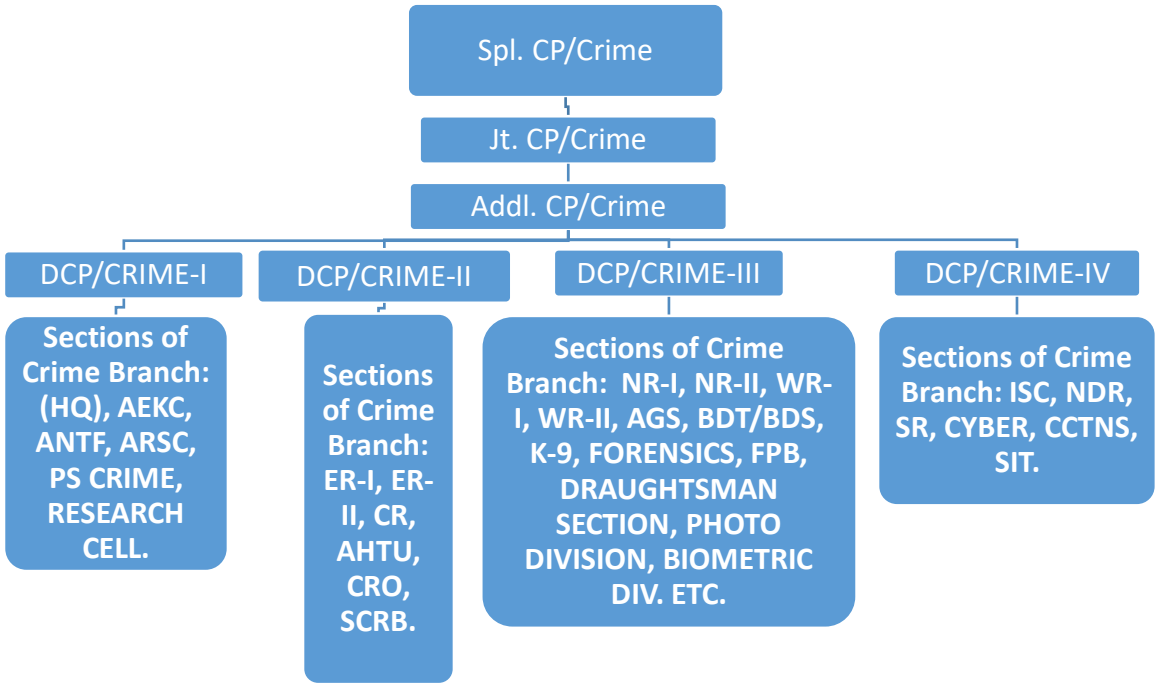

Zonal Integrated Police Network (ZIPNET)

ZIPNET has the data of crime, criminals, missing persons, UIDBs, stolen vehicles etc. from 8 states viz. Haryana, Rajasthan, UP, Punjab, Uttarakhand, Chandigarh, Himachal Pradesh and Delhi. It has been found quite useful by the investigating agencies of all the member states. The records of missing persons and UIDBs uploaded on the system help in identifying and tracing the victims. This module has been made bi-lingual by providing the facility of searching in Hindi as well.

4 Crime Branch deals with important and sensitive cases/investigation, prevent major crimes, terrorism, organized crime, Human Trafficking, abduction and other serious offences etc., while also collecting criminal intelligence.
