STANDING ORDER NO.HRD/35/2022

EQUIP ALL POLICE STATIONS IN DELHI WITH SCIENTIFIC AID KIT BOXES TO IMPROVE QUALITY OF INVESTIGATION

1. INTRODUCTION

The importance of employing scientific aids to investigation has been impressed upon the I.O.'s from time to time in the past. The scene of crime is inspected by the District Crime Team and Central Crime Team though a large number of officers of the rank of Head Constables, ASIs, SIs and Inspectors. All 224 Police Stations in Delhi are to have Scientific Aid Kit Boxes to improve quality of investigation. All investigating offices may be trained to handle these Kit Boxes by the trained officers available in Police Stations/Districts. The DCP Crime Delhi will provide literature regarding cases worked out with the help of scientific investigation to all Police Stations.

2. MAINTENANCE OF KIT BOXES

Kit Boxes are valuable assets and the articles contained therein are costly and fragile. The Kit Boxes should be entered in the Govt. Property Register of the Police Station (Register No.XVI) and material consumed should be properly accounted for with a view to obtaining timely replacement. Normally the life of the appliances is three years and the damage caused would mean that the handling was not proper. One upper-subordinate from each Police Station should be made incharge of the Kit Box for their proper maintenance and up-keep. Distt. DCsP would be well advised to see that the refills are purchased and supplied to Police Stations well in advance to avoid dislocation of work. The I.O.s handling the Kit Boxes should see that the materials in the Boxes are not wasted or misused. A separate register should be maintained by the officer handling the Kit Boxes and entries made to record issue & return with details of cases and name of the user, material used. All senior officers inspecting the Police Stations would also make it a point to inspect the Kit Boxes and the relevant registers maintained by the officers handling them. SHOs should take personal interest to ensure proper use and training, maintenance of the Kits.
