Message of the
DIRECTOR, DELHI POLICE ACADEMY

You have come from different parts of the country with different cultures and different educational qualifications. But now, you all are proud members of Delhi Police as well as all the officers under training at Delhi Police Academy. You have reached this institute through a rigorous selection process. I want to tell you that it's going to be tough. There will be days when your body hurts so much that you feel like quitting. There will be days when you feel exerted and exhausted, but never lose the curious adventurer within you, and in the end you will be proud of your decision.

Always remember, **"Confidence comes not from always being right but from not being afraid of being wrong"**. You will learn a lot at your Academy. You will learn that a healthy body is a prerequisite for a happy mind. You will work hard with your teammates and provide complete service together. You will learn new skills and gain more knowledge. You will remain disciplined and you will also enjoy it. You will be fascinated by the wisdom of the African proverb "If you want to go fast, go alone. If you want to go far, go together".

But all this will happen if you have an open mind, willingness to learn and work hard. Abraham Lincoln, one of the greatest souls to ever walk the earth, said, **"Nearly all men can withstand adversity, but if you want to test a man's character, give him power"**. All of you will feel abundance of power in your work. But you will also have choices. Your institution will be proud of you, when you show your worthy character by standing up for the downtrodden section of our society, when you resist the temptation of corruption and luxury, when you risk your life for safety of citizen. You will be thankful to this organization for having such a life character.

Trust your training, trust your teammates and trust yourself.

Jai Hind

VIJAY SINGH, IPS
Director, Delhi Police Academy, New Delhi.

FROM THE DESK OF THE EDITOR

As I take on the responsibility of being the editor of the **"Kadamtaal"** Newsletter, I find myself entrusted with a unique duty. This newsletter is set to be a periodic publication, an endeavor much like planting a seed that will grow into a towering tree. The journey of this seed from beneath the soil to its rule over the land is dependent on nurturing, meticulous care, pruning, and the quality of the seed itself.

The training period, in many ways, resembles this seed. It is here that the quality of training determines the character, behavior and knowledge of a trainee, ultimately shaping the path and extent of their success in serving our citizens.

Just as gold must endure intense heat to transform into beautiful jewelry, a trainee must undergo rigorous training to emerge as a distinguished officer. Initiating the first edition of this newsletter marks the initial step in providing wings to their dreams.

I'm proud to mention that the Delhi Police Academy not only offers training to Delhi Police but also extends its expertise to various states and territorial police forces.

In this inaugural edition, we aim to provide a glimpse into the academy, its infrastructures and the high-quality training that shapes the future of our police force.

In the editions to come, both trainees and the staff at the Delhi Police Academy are encouraged to share their views, enriching the content that will adorn these pages.

Together, we embark on this journey of sharing knowledge, experiences, and stories that will undoubtedly inspire and educate our readers.

With warm regards,

Uma Shankar

The Use of Drones in Policing : Enhancing Law Enforcement in the Digital Age

Uma Shankar
Deputy Director
(Training), DPA

In recent years, the deployment of drones in policing has rapidly expanded, ushering in a new era of law enforcement. These unmanned aerial vehicles, equipped with cameras and other equipment, offer law enforcement agencies a powerful tool for different dimensions of policing.

One of the primary applications of drones in policing is surveillance. Drones provide law enforcement agencies with an eye in the sky, offering an aerial view of various situations. This aerial perspective is invaluable in assessing mass gathering, material collected for riots, tracking suspects, and gathering evidence.

Use of drone for surveillance by Delhi Police

In addition to surveillance, drones are invaluable for evidence collection. They capture high-quality images and videos of crime scenes, accidents, and other incidents, providing a detailed record for documentation and analysis. This evidentiary use of drones can improve the accuracy of investigations and court proceedings.

Event security is yet another domain where drones shine. Large events, festivals, and public gatherings can pose significant security challenges. Drones offer real-time situational awareness, enabling law enforcement to monitor crowds, detect potential threats, and respond swiftly to emergencies. The aerial perspective they provide helps ensure the safety of attendees and the security of such events.

Crowd control during protests or large gatherings is a sensitive area in which drones have proved their role. They allow law enforcement to monitor and manage crowds from a distance, reducing the need for a heavy police presence on the ground. This can help prevent escalations of tensions and ensure the safety of both protestors and law enforcement officers. Drone equipped with Tear gas is useful to disburse unruly mob.

Traffic management is another area where drones prove their worth. They can help law enforcement agencies to monitor traffic flow, identify traffic violations, and manage congestion. Drones equipped with advanced cameras and artificial intelligence can spot reckless driving, monitor speed limits, and even assess vehicle emissions. This technology contributes to safer roadways and efficient traffic management.

Drones also prove their utility in crisis response situations. In the aftermath of natural disasters, such as earthquakes, floods, or wildfires, drones can quickly assess the damage, identify hazards, and plan effective rescue efforts. Their ability to access hard-to-reach areas makes them a valuable asset in saving lives and minimizing damage.

Anti-drone technology is also necessary in policing to detect, track, and neutralize unauthorized or potentially threatening drones. These systems help safeguard critical infrastructure, events, and VVIP safety by countering the misuse of drones.

Deployment of anti-drone system of DRDO by Delhi Police during Independence Day celebration

The underutilization of drone technology within law enforcement agencies is a concerning gap. Limited budgets, coupled with the expense of training and maintaining drone programs, hinder widespread adoption. Privacy concerns, data management and the resistance to change in traditional policing practices further exacerbates this shortfall. To address this issue, it is imperative that police departments invest in training, seek funding opportunities, and collaborate with other agencies. Properly managed drone technology can significantly enhance law enforcement capabilities.

In conclusion, the use of drones in policing may revolutionize law enforcement capabilities, offering enhanced surveillance, search and rescue, traffic management, event security, crowd control, evidence collection, and crisis response. As technology continues to evolve, law enforcement agencies must adapt and uphold a commitment to newer technologies in the digital age.

HOW TEAM DELHI POLICE ACADEMY PREPARED 'THE GLOBAL COP' FOR THE MEGA EVENT

Ajay Karan Sharma
Inspector
ACC, DANIPS
DPA, JK

The Journey:

It has been an unstoppable journey since it was intimated that Delhi Police Academy was to train maximum Delhi Police personnel for the G-20 Summit.

The news was received with great excitement but also a sense of awe. Training a massive number of Delhi Police personnel to cater to global dignitaries coming for the huge mega event seemed a colossal task. But the Delhi Police Academy has always been gifted with great leadership having diverse experience of every field and a fleet of capable, professional officers.

The result: We formed a Dream Team.

How the Team did it:

Though we had all the rich professional skills and experience of training police personnel for various training programmes, this was something different. Training thousands of police officers within a short period of time to think on a global level and act as global police officers was an arduous assignment. And so, Team Delhi Police Academy devised an entirely diverse programme spread over the entire range of professional working of police force for the G-20 Mega Summit as required by various Units & Districts of Delhi Police. We roped in experts from British Council, Psychologists, and Professors from Schools of Languages of renowned Universities & Institutions, Security Duty Experts and other Institutes. And yes! We already had a big training team of police working at Delhi Police Academy.

We were to train the Delhi Police officers to dole out as Hosts, Guides and Protectors covering following fields:

As Hosts:

Purpose of G-20 Summit and Orientation, Member countries of G-20 & main features about these countries, Country specific etiquette, Intercultural Etiquette and Communication Skills, English speaking for G-20 Summit, Gender sensitization and prohibition of racial discrimination, Improving and adopting good behaviour, Positive Attitude, Soft Skills, Behaviour and body language, Formal dressing code, Good physical & mental health. Adopting hygiene.

As Guides:

Delhi and important NCR towns, important places, roads, monuments, markets, famous food places, tourist places, Helping Tourists and delegates of G-20 summit. Basic English conversation and mannerisms, Empathetic attitude in grievance redressal.

As Protectors:

VIP Security duties and other related arrangements, Access control, Searching & Frisking, Handling of Equipments – DFMD & HHMD used for Searching, Anti-Sabotage checking, Security Check Equipment. Protection of area of duty, Handling & operation of Wireless sets during VVIP Security duties, First Aid & CPR, Specialized Commando Training and handling of latest sophisticated weapons, Dealing with any terrorist threats, quarrel or other untoward incidents, Air-borne attacks & threats, Types of IEDs, Identifying and detection of hidden IEDs and other suspicious articles.

It was a complete all-inclusive package!

Training Venues & Final Outcome:

The main training sessions related to G-20 Orientation and Security Duties were conducted at the Delhi Police Academy, West Campus, Jharoda Kalan, Delhi. The training related to Specialized Commando Training and Weapon Tactics were conducted at CTC Abhanpur, Rajasthan. The other Campuses at Dwarka, Wazirabad& East Campus, Jharoda Kalan were assigned the task of imparting G-20 Orientation Training to freshly inducted police officers.

With Training Programme Schedule spread over a span of nine months since January 2023, Delhi Police Academy has trained over 15,000 Delhi Police personnel for the G-20 Summit. Our training programmes have catapulted Delhi Police onto a pedestal where the guests coming for G-20 Summit have started comparing Delhi Police with competent police forces of developed nations. Another feather in the cap for us!

Even with the G-20 Summit over now, the Dream Team of Delhi Police Academy has not ended its roller-coaster sojourn. We are looking forward for more such global level events and there is a lot to gain from such rich lifetime experiences.

THE ROLE OF WOMEN IN POLICING

W/PSI Payal Dahiya
Batch No. 53

The role of women in the police has been steadily increasing; the history of women police recruitment in India traces a transformative journey. Initially, women's participation in Police force was limited, with sporadic appointments mainly for tasks involving women and children. The induction of women in the police has helped in empowering them and reducing crime against them. The 1980s marked increased efforts towards gender diversity in the police force. States like Maharashtra and Delhi initiated the recruitment of women in large numbers.

In India, most people view the police as that a male dominant. The NCRB data also reveals that though the average representation of women in police force has increase from 2% in 2001 to 7% in 2016, it is still far from satisfactory. The Home Ministry had issued advisories to all State Govt. to increase representation of women in police to 33%. As a result, a number of central and state police organizations have instituted women-only battalions and police stations.

The inclusion of women in police department is essential for various reasons as they are more sensitive to the sufferings of others and have great concern for wellbeing of others. They after approach and solve problems from a different perspective than their male counterparts. They give their jobs total commitment and trusted by communities. It is widely recognized that women cops plays a crucial role in responding to & preventing gender violence and Crime Against Women and Children. However, the challenges still remains to provide meaningful roles and equal opportunities to women police in the investigation of Crime, Law and Order, Patrolling duties.

They are required by law to be used for search and seizure from the person of women, they are expected to be used in law & order situation involving Woman. The IPC & the POSCO Act require Women Police officers to deal with victims of sexual assault, even juvenile delinquent are expected to be better handed by Women Officers. In the face of uncertainties confusion & chaos, our Women have been a pillar of resolute Strength. Although Women cops give their jobs total commitment several of their gender specific issues remains overlooked. They face several challenges after getting into the service like poor infrastructure. A systematic approach to equally distribute the available resources may facilitate the women police personnel to a large extent and make the working environment more amiable for them . Balancing Personal responsibility, particularly child care roles, remains a major barrier for women's career advancement in policing. Accessible & safe transportation options should also be available for female offices working late shifts. Efforts are ongoing to address these issues and create a more inclusive and gender sensitive working environment for female officers.

Today is the need of encouraging women to take up a central rather than a marginal role in the police. To this end, we need to move away from tokenism and ensure Women a central role rather than a peripheral role in the police, a role that affords them the equality of opportunity, free from stereotypical gender bias. Otherwise, their number may increase but their role & impact will not. A beginning can be made by the creation of additional posts of women constables and Sis.

हमारी प्यारी अकादमी

यह जगह भी तो एक महफ़िल ही है !
हम आये हैं इस महफ़िल में,
पता नहीं कहाँ-कहाँ से ?
हम आये हैं इस महफ़िल में,
.....हर एक जगह से!
और लाये हैं यहाँ,
अपने घरों की यादें हसीन,
और दिल में थोड़े से अरमान,
....कुछ करने को बेहतरीन I
कुछ खुशियाँ लाये सब हम हैं,
कुछ अपनों से,
दूर हो जाने का भी गम है I
अब जब इकठे हो ही गए,
तो आओ....इनको ही बाँट लेते हैं,
क्योंकि....यह महफ़िल क्या किसी से कम है ?
हम आए हैं इस महफिल में,
कुछ बाँटने के लिए, ए दोस्तों !
कुछ खुशियाँ तेरीं,
कुछ गम हैं मेरे !
कुछ कहानी किस्से तेरे-मेरे !
ये कदम,
साथ चलने के लिए,
लेकर आए हैं ए दोस्तों !
..... मगर,
जाने कौन कब बिछड़ जायेगा ?
किसको है पता ....ए दोस्तों !
तो हँस-खेल लो !
अपने गम, अपनी खुशियाँ बाँट लो !
कल हम इस महफ़िल में रहे न रहे,
लेकिन यह बाते हमेशा रहेंगी !
और इन्हीं बातों में छुपी
हमारी-तुम्हारी ख़ुशियाँ.....
हमारी यादें, हमेशा रहेंगी, ए दोस्तों !

खाकी वर्दी का सैलाब, कदमताल की थाप,
कदमताल पुलिस परेड, एक अनोखा प्रताप।

सिर ऊंचा, सीना तानकर,
चलते हैं कदमताल में, शहर को संभालकर।

उनके कदमों की गूंज, गगनभेदी,
एकता और शौर्य का प्रतीक, अभेद्य।

चहलपहल भरी गलियों से लेकर ऊंची इमारतों तक,
चलते हैं वे, मार्गदर्शक प्रकाश की तरह।

उनकी उपस्थिति एक विश्वास, आशा की किरण,
रक्षा करते हैं नागरिकों की, हर कदम पर।

पक्के अनुभवी से लेकर युवा भर्ती तक,
हर कोई उत्साह से चलता है, उनका हौसला बढ़ता है।

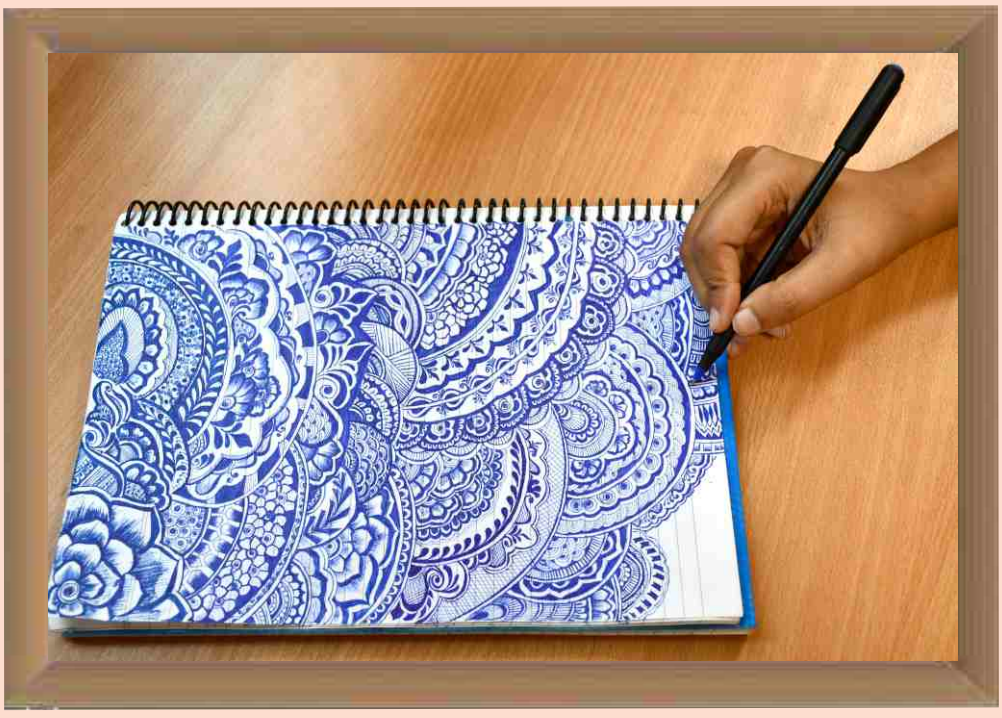

वे शांति के रक्षक हैं, कानून के पालनकर्ता हैं,
उनका समर्पण अटल है, उनकी प्रतिबद्धता अडिग है।

तो आइए हम कदमताल पुलिस परेड को सलाम करें,
उनकी निस्वार्थ सेवा के लिए, उनके किए गए बलिदान के लिए।

उनका साहस हमें प्रेरित करे, उनकी भावना हमें जगाए,
जैसे वे आगे बढ़ते हैं, अपनी पूरी ताकत के साथ।

No one is going to relieve your tension,
No one believes in you but in your hard-earned pension,

The harsh truth of life is that you were born alone,
No one is going to pay his emotions in the team of loan,

Invest in your emotions and understand your feelings,
